LOG OF INSPECTION EXPERIENCE

PSL/30(I) Issue 1 dated 26th April 2007 reviewed 9th December 2011

Industrial NDT experience in the applicable field of inspection application, which leads to the acquisition or maintenance of the required skill and knowledge, is to be gained and recorded by PCN candidates and holders alike. In the event that a false statement is made concerning certification experience, PCN certification awarded or maintained as a result will be null and void.

The required duration of experience for candidates is detailed in the relevant PCN document.

Recording experience

Candidates will be required to provide documented proof, authenticated by an employer or responsible agency (who PCN may contact for verification purposes), of the work experience necessary in order to gain or maintain PCN certification. The forms overleaf are designed for the purpose of recording experience, and may be freely copied.

030

The British Institute of Non-Destructive Testing is an accredited certification body offering personnel and quality management systems assessment and certification against criteria set out in international and European standards through the PCN Certification Scheme.
