

# Aerospace technique validation and standards workshop

4 October 2022

GKN Aerospace, Bristol, UK

Rescheduled from  
5 April 2022

## Details of the workshop

The Aerospace Workshop is organised by the Aerospace Committee and the West of England Branch of the British Institute of Non-Destructive Testing (BINDT). This workshop will aim to understand current practices for technique validation in the aerospace industry, then review what is practised in other industries and will finally look at any recommendations and gaps within the aerospace sector.

The secondary output of this workshop will look at the current state of standards to support technique validation and what other barriers there may be for adopting new NDT techniques.

### For registration, please complete the form and send to the address below.
