

## “ANALYSING ART: NEW TECHNOLOGIES - NEW APPLICATIONS”

**BINDT**  
THE BRITISH INSTITUTE OF  
NON-DESTRUCTIVE TESTING

*‘Research for tomorrow. Today in practice’*

The British Institute of Non-Destructive Testing (BINDT), with the kind support of The True Image Solution Ltd, UK, and The Institute for Diagnostic Imaging Research (IDIR), Canada, cordially invite you to participate in the fourth international workshop, *Analysing Art: New Technologies – New Applications* dedicated to the application of new technologies in the analysis of cultural heritage. This time the workshop will be held in one of the most historic and cultural cities in Europe, Antwerp, Belgium, from 18-21 May 2025, at the University of Antwerp – City Campus, Convent of the Grey Sisters.

The multi-disciplinary workshop will focus on non-destructive testing for the preventive conservation of art as it relates to the sustainability of cultural heritage and will bring together scientists, engineers, curators, restoration experts, conservationists and art historians. This event will be a unique confluence of art and technology communities and is indicative of the high-tech trends that have been impacting cultural heritage.

Leading experts in this field are expected to attend from all over the world and have prepared a stimulating and informative scientific programme including substantial networking opportunities.

Register today at: [www.bindt.org](http://www.bindt.org)
