

PCN Panel Sessions

8-9 November 2017 | Dubai, United Arab Emirates

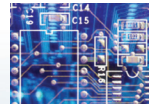

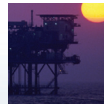

The British Institute of Non-Destructive Testing (BINDT) will be holding four panel sessions on 8-9 November 2017 at Olympus MEA FZ-LLC, Dubai Science Park, Nucleotide Complex, Dubai, United Arab Emirates.

The sessions will address the concerns of candidates and end-users following the withdrawal of NDT International's ATO/AQB status.

Senior representatives from BINDT will advise delegates how BINDT will be policing/protecting the PCN Scheme going forward with the aim of building confidence in the PCN Scheme among certificate holders and employers of PCN-certificated personnel.

A couple of small presentations will be given, followed by questions from the floor.

The event is free of charge but spaces are limited. To register to attend please email Nicole Banks (nicole.banks@bindt.org).
