**Issue 11 dated 1st January 2022**

**APPLICATION FOR:**

**(A) INITIAL EXAMINATION FOR CERTIFICATION IN CONDITION MONITORING OR**

**(B) ASSESSEMENT FOR CERTIFICATION IN MARINE MMCM**

All application requirements are specified in the relevant General requirements documents, CMGEN or MMCMP/GEN.

This application is used **for one certificate only**.

**Applicants will be required to supply verifiable data in support of this application.**

This form also serves as verification of identity from the applicant.

All parts of this form must be completed in full, except where fields are noted as 'voluntary' due to European or various national laws on disclosure.

The examination or assessment fees (Initial, renewal, supplementary, re-test and re-certification) are outlined in PSL/35-CM-Marine.

**Verification of Identity**

The PCN-CM or Marine wallet card/certificate requires a recent photograph of the holder that is verified by an appropriate witness.

Please supply two passport size photographs, signed by the appointed witness, who completes the 'witness detail' field below.

**PLEASE NOTE THAT IF A CANDIDATE ALREADY HOLDS A VALID PCN CERTIFICATE THERE IS NO FURTHER REQUIREMENT FOR PHOTOGRAPHS OR A WITNESS STATEMENT VERIFICATION**

**WARNING.** Any proven case of forgery or misrepresentation will result in the cancellation of all PCN certification and the offender will be prohibited from regaining any PCN certification for a period of not less than one year.

**For Condition Monitoring Exams held outside of Europe, applications must be received two weeks prior to the exam date to ensure successful delivery of the exam pack to the Invigilator.**

# CODE OF ETHICS FOR PCN CERTIFICATE HOLDERS

**Derived from CP27 and applies to all testing personnel (NDT, CM, Marine) certificated by PCN.**

Individuals certified within the PCN Scheme must recognise that personal integrity and professional competence are the fundamental principles on which their testing activities are founded. Consequently, it is required that all PCN certified NDT personnel subscribe to a "Code of Ethics" designed to protect the integrity of any NDT processes and inspections in which they may become involved.

The integrity of NDT and CM processes and the people performing those processes is a fundamental requirement in ensuring that the inspections performed remain at the highest possible level in terms of quality and reliability. Consequently, BINDT and industry at large expect all PCN certified NDT and CM personnel to conduct themselves in an ethical and morally acceptable manner at all times whilst performing their NDT/CM duties.

It is a condition of PCN certification that certificate holders are expected, as a minimum to understand, acknowledge and abide by this code of ethics and the principles contained herein. It is a requirement that all PCN applicants and certificate holders acknowledge, by signature below, that they have read, understood and acknowledge this code of ethics and hereby agree to abide by them at all times whilst engaged in PCN certified NDT and/or CM activities.

I, the undersigned, undertake to:

1. comply with this code of ethics;
2. apply themselves correctly and to maintain high levels of integrity, honesty, skill and proficiency in the conducting of NDT
3. undertake only those non-destructive testing assignments for which they are competent by virtue of their training, qualification and experience. i.e. to only perform inspections commensurate with their level of certification in the applicable test disciplines.
4. perform all inspections to the best of one's ability at all times and to resist any outside pressures that they consider may have the potential to affect the integrity, honesty, quality or outcome of any testing performed. Any such undue pressures should be reported to the employing management/supervision and BINDT.
5. only sign documents for work of which they have personal professional knowledge and/or direct supervisory control;
6. engage, or advise the engagement of, such specialists as are required to enable assignments to be properly completed;
7. conduct themselves in a responsible manner and utilize fair and equitable business practices in dealing with colleagues, clients and associates;
8. at all times, be aware of and uphold the provisions/ requirements of codes, regulations and standards under which they are working;
9. immediately report to their supervisor/employer any perceived violation(s) of codes, regulations or standards. In the event that their supervisor/employer provides no satisfactory explanation or takes no corrective action, the certified individual shall report the situation direct to the British Institute of NDT;
10. perform their professional duties with proper regard for the physical environment and the safety, health and well-being of the public;
11. protect to the fullest extent possible, consistent with the well being of the public and the provisions of this code of ethics, any information given to them in confidence by an employer, colleague or member of the public;
12. avoid conflicts of interest with the employer or client, but when unavoidable, forthwith disclose the circumstances to the employer or client;
13. strive to maintain their proficiency by updating their technical knowledge as required to properly practice NDT in the certified methods and levels.
14. indicate to the employer or client any adverse consequences which may result from an overruling of their technical judgment by a non-technical authority;
15. not falsify nor permit misrepresentation of their own or their associate's academic or professional qualifications, training, experience or work responsibilities;

16. refrain from making unjustified statements or from performing unethical acts which would discredit the PCN scheme;
17. immediately report to the British Institute of NDT any perceived or known fraudulent use of PCN certification, including the use of forged or false PCN certification.
18. immediately report to the British Institute of NDT any perceived violation(s) of this code of ethics;
19. immediately report to the British Institute of NDT any attempt to pressure or force an individual certified under the PCN Scheme to violate this code of ethics;
20. inform their employer in the event that their PCN certificate is suspended, cancelled or withdrawn.

Failure to comply with the above code of ethics will be dealt with under arrangements for handling complaints and appeals (PCN document CP21 refers).

**REMINDER:** PCN certificate holders are reminded that they should be aware of the consequences that may arise from any failure to comply with this code of ethics including the consequences of in-service failures and any ongoing effect on the health and safety of persons, plant, equipment and the environment.

*I acknowledge I have read and understand the PCN "Code of Ethics" and hereby give my commitment to abide by those principles in the performance of my NDT duties whilst certified by PCN.*
