

# The Scottish Branch of the British Institute of Non-Destructive Testing

## Educating the future NDT engineer seminar

Friday 26 January 2024 at the Lynnhurst Hotel, Johnstone, UK

This one-day seminar, will take place from 10h00-15h00 at the Lynnhurst Hotel on Friday 26 January 2024.

NDT engineers and technicians of the future will have to cope with the increasing complexity of NDT equipment, digitisation and artificial intelligence, as well as a widening range of applications in NDT, CM and SHM – all extending well outside the scope of current formal education and NDT training. This has led to calls for new qualifications ('NDT Engineer' and 'Level 3+'), which are becoming available internationally.

The seminar will examine:

- What is available now as NDT education for engineers, across relevant disciplines of mechanical, electrical, civil, aero, etc?
- What will be required in the future at apprenticeship, bachelor, master, PhD/ EngDoc and CPD levels for the next generation NDT specialist?

A group of UK and international expert speakers will address these topics and a panel (including industry representatives) will consider what more could/should be provided in future by the education sector, equipment companies and training organisations.

The Lynnhurst Hotel is ideally placed in Johnstone, which is just 10 miles from Glasgow Airport. Glasgow City Centre is within easy reach and Johnstone railway station is just a few hundred metres away

In the evening, following a networking period, the venue will host the **Annual Burns Supper**, a celebration of the life and works of Robert Burns, with music, songs and dancing.

To register for this event, please complete the registration form below and return by email to: [conf@bindt.org](mailto:conf@bindt.org) (an additional charge of £42.00 + VAT per head applies for the Burns Supper).
