CP17A APPENDIX A GUIDANCE NOTES FOR COMPLETION OF CP17A ........................................ 10
Summary of changes ............................................................................................................... 11

GENERAL INFORMATION

Complete & correct applications must be submitted to PCN no sooner than 6 months and no later 6 weeks prior to the expiry date.

The revalidated certificate will be issued from the previous expiry date and will expire 5 years less a day from the original expiry date, unless the deferral rule applies (see deferral approval process PSL28).

1. If the CP17 application has been submitted following the correct process but the application is not complete by the expiry date of the certificate, then the candidate must apply for a late application using form PSL28 and shall incur the financial penalty.

2. CP17 applications submitted to PCN within the 6 weeks prior to certificate expiry will be rejected and the candidate shall:
   i. Apply to PCN for a deferred approval
   ii. Apply to an AQB for a recertification exam and the candidate will lose time on the certificate (as per the current PSL28 rule).

3. CP17 applications submitted to PCN after the 6 weeks prior to certificate expiry will be rejected and the candidate shall:
   i. Apply to PCN for a late approval
   ii. Apply to an AQB for a recertification exam and the candidate will lose time on the certificate (as per the current PSL28 rule)
Certificates on issue 01 and 02. Applications for renewal/recertification by CP16/CP17 exceeding the 10 month period will not be admitted and the candidate shall successfully pass an initial examination (general, specific, and practical) for level 1 and level 2 and a main method examination for level 3

Applications should be posted or emailed to;
PCN Certification Records Office, Midsummer House, Riverside Way, Bedford Road, Northampton, NN1 5NX, pcn@bindt.org, together with;

- A certificate of acuity of near vision satisfying the requirements detailed in PSL/44 (the test having been carried out with the 12 months prior to the date of this application),
- The current Level 3 recertification fee (see PSL/35), and
- A completed Form A2 showing points claimed under the structured credit system.
- Verifiable evidence of typical level 3 activities recorded on Form A3
- A completed Annex D showing proof of level 2 practical competence

FOREWORD

All Certificate holders when recertifying L3 (by examination or structured credit system) will need to prove continued practical competence at L2 Using Annex D. Holders of valid L2 certificates will be exempt this need. It is the responsibility of the certificate holder to initiate the procedure required for renewal and to ensure the correct issue status of CP17A prior to making application.

1. Related PCN documents

   - PCN/AERO  General requirements for the certification of personnel engaged in NDT within the aerospace sector
   - PCN/GEN  Appendix E3 (Requirements for radiation safety)
   - PSL/8a  PCN documents issue status
   - PSL/28  Application for late/deferred approval
   - PSL/33  PCN wallet cards (for those who do not hold one already)
   - PSL/35  PCN charges
   - PSL/44  PCN vision requirements
   - PSL/44_Annex A  Guidance on company procedures for vision testing
   - PSL/57B  PCN Recertification examination application form
   - CP17  Level 3 renewal/recertification
   - CP21  Complaints and Appeals
   - CP27  Code of Conduct for PCN certificate Holders

2. Terms and Definitions

   a) **Recertification** - The procedure for revalidation of a PCN level 3 certificate by examination conducted at a PCN authorised qualifying body or through the structured credit system detailed at Annex A to this document.

   b) **Committee or panel meetings** - Meetings, conferences, symposia, seminars, trade association meetings, panels, etc. organized or sponsored by a regional, national or international NDT organization or technical society. Foreign or international meetings qualify if the sponsor(s) are national or international.

   c) **Committee projects** - Specific identifiable official activities of regional or national technical societies, committees or work groups, such as round robins or individual studies, preparation of guidelines, appendices, specifications, recommended practices, procedures, codes or standards, etc. Documentation may include memos or reports, drafts of committee output documents, or official written comments submitted by the candidate on such documents.

   d) **Significant Interruption**: An absence from (or a change of) work activity which prevents the holder of PCN certification from practising the duties corresponding to his or her level in the method and sector(s) for which certification was issued, for (a) a continuous period in excess of one year or (b) two or more periods for a total time exceeding two years. For the purpose of calculating this period, authorised holidays, illness or periods of related training and education, any of which are 30 days or less in duration, shall not be considered.
3. **Applicability and compliance**
   
a) All applicants for PCN Aerospace Level 3 recertification shall provide verifiable evidence of continuity of employment using Form A3.

b) Applicants for recertification who are unable to demonstrate continuity of employment to the satisfaction of the British Institute of NDT will be considered initial candidates for PCN Aerospace Level 3 certification in the NDT method concerned.

c) Level 3 radiographers should ascertain the current PCN/GEN Appendix E3 requirements for radiation safety certification before applying for renewal or recertification.

**ANNEX A - CREDIT SYSTEM FOR RECERTIFICATION OF LEVEL 3 NDT PERSONNEL**

**Scope**

This annex specifies the requirements for recertification of the Level 3 NDT personnel without examination. It is available only to PCN Level 3 holders who are NOT required to operate NDT equipment and / or to accept / reject aerospace materials components and /or structure as a part of their Level 3 duties – unless they concurrently hold a PCN Level 2 certificate valid for the same scope as the Level 3 certificate concerned.

**Requirements**

Application for recertification shall be made to the British Institute of NDT Certification Services Division at least 6 weeks prior to the expiry date of the qualification concerned,

Candidates shall provide objective evidence that they have kept up to date with current NDT technology in the method(s) for which they are seeking recertification by obtaining a minimum of 24 points during the five year period of certification, irrespective of the number of certifications (methods) obtained, by engaging in one or more of the activities listed in Form A2.
GENERAL DATA PROTECTION REGULATION (GDPR) –
BINDT will store and use the information given on this form only for the purpose for which it has been provided. Your personal details and any other data you provide to BINDT will not be passed on to a third-party without your permission.
BINDT would like to contact you from time to time to let you know about its other services that may be of interest, such as special offers and discounts, events and new products. If you are happy to be contacted by BINDT, please indicate by ticking the box below:

PART B - DETAILS OF CONTINUITY IN USING THE NDT METHOD

Please provide, using the form at Annex C, details of a selection (10 minimum) of verifiable level 3 tasks, appropriate to the certificate to be renewed, for which the applicant has been responsible during the validity of the certificate to be revalidated. The details provided must include the following:

- The organisation for whom the task was carried out;
- The date the task was carried out;
- The material, product, plant or structure concerned;
- The relevant code, standard, specification or procedure reference;
- A contact name and telephone number to enable verification to be effected.

The application will be returned if such details are not provided.

Certificate holders are encouraged to maintain a log of ongoing work activity, and completed log books or log book pages providing the above information are admissible (photocopies are acceptable - original log books will be returned with certificates).

PART C - APPLICANT’S DECLARATION

The information given in Parts A and B of this application is, to the best of my knowledge, accurate. During the preceding five years, I have applied the NDT method (covered by the certificate to be recertified) without significant interruption. Details of any complaints regarding competence in relation to this certificate are attached herewith. I agree to comply with the PCN Code of Ethics (document reference CP27).

Total points claimed (minimum of 24 points over five years):

Verifiable evidence of activities for which points are claimed must be submitted with an application for recertification. A minimum of 24 points is required to achieve recertification through the structured credit system.
In order to demonstrate the continued application of Level 3 duties. The certificate holder **shall**, when applying for renewal or recertification under the structured credit system, or by written examination covering the 5 year period of the certificate being renewed.

- Record a minimum of 10 relevant level 3 tasks, in the specific method for which the certification under renewal or recertification is held. (Two entries required per year)
- A separate sheet for each certificate being renewed or recertified shall be used

ANNEX D TO CP17 - RECORD OF CHECKS CARRIED OUT TO MONITOR THE CERTIFICATE HOLDER’S PRACTICAL COMPETENCE

Including on-the-job monitoring or re-inspection, and/or testing a training sample provided by an accredited training organisation. Use a different sheet for each PCN certificate. 

A minimum of one recorded surveillance per annum from 2013 is acceptable, though two or more per annum is preferred.

NOTE: The Supervisors’ certificate(s) must be verified as the same level, sector and method and must be valid at the time the experience was gained.

[NB: This may include certification schemes other than ISO 9712, such as EN 4179 and SNT-TC-1A providing that this certification has been gained using external training/examination support provided by a BINDT approved organisation. The organisation must be a BINDT approved ATO, AQB and/or OA status.

Please contact pcn@bindt.org if clarification on this is required.

CP17A APPENDIX A GUIDANCE NOTES FOR COMPLETION OF CP17A

1. For certificates which have expired or are due to expire and fall within the 6 weeks prior to expiry please refer to document PSL/28

2. General
   2.1. It is the responsibility of the certificate holder to initiate the procedure required for recertification
   2.2. The recertification application shall be submitted to PCN no sooner than 6 months and no later than 6 weeks before the expiry date of the certificate concerned
   2.3. Applications for recertification shall only be completed by the PCN holder.
   2.4. Recertified certificates will be issued from the previous expiry and expire 5 years minus a day from the original expiry date.

WARNING! THERE IS A HIGH PERCENTAGE OF VERIFICATION CARRIED OUT ON INFORMATION SUBMITTED IN SUPPORT OF APPLICATIONS FOR RENEWAL. IN THE EVENT THAT A DELIBERATE ATTEMPT TO DECEIVE IS DETECTED, SEVERE PENALTIES WILL BE APPLIED. IF IN DOUBT ABOUT THE VALIDITY OF THE INFORMATION YOU ARE PROVIDING, SEEK THE ADVICE OF BINDT CERTIFICATION RECORDS OFFICE STAFF.

3. Procedure for PCN aerospace level 3 recertification via the structured credit system
   3.1. In this system the holder of level 3 certification gains credit for participation, in the five years prior to recertification, in the various NDT activities shown in Table A1.
   3.2. In the event that a PCN certificate has expired, the holder may apply for late approval up to 12 months after the date of expiry (and no later) using PCN form PSL/28 obtainable from www.bindt.org/certification. PSL/28 may also be used by individuals who recognise in advance that, for whatever reason, they will be unable to submit their application for renewal before the 6 weeks prior to the qualification expiry date concerned, in which case they may apply on PSL/28 for deferred approval. It is emphasized that acceptance of an application for late or deferred approval does not extend the validity of the PCN certificate concerned.
   3.3. CP17A applications submitted within the 6 weeks prior of expiry date will be rejected, the candidate will need to apply for a deferred approval and the recertification examination must be taken.
   3.4. If renewal is applied for more than 12 months after expiry, initial by examination shall be required.

   Note: Late/deferred applications will incur an additional charge, listed within PCN document PSL/35

   3.5. The certificate holder must submit to the PCN Certification Records Office a completed application together with documentary evidence of a satisfactory test of visual acuity (meeting the published requirements of PCN document PSL/44) conducted within the 12 months prior to recertification.

   3.6. Documented evidence of meeting the PCN requirement for level 3 recertification through the credit system must be submitted on Form A1 with the application for recertification (Annex A). One application is to be submitted for each sector/method of certificate for which recertification under the credit system is sought, and the applicant is required to complete Annex D, Annex A Parts A, B and C, the certificate holder’s employer must complete Part D.

   3.7. The completed application form A1 is to be sent along with;
   i. Documentary evidence of a satisfactory test of visual acuity (refer to document PSL-44)
   ii. A2 Matrix of points claimed
   iii. A3 Evidence of level 3 work activity
   iv. Annex D Record of checks carried out to monitor the certificate holder’s practical competence

*All Certificate holders when recertifying L3 (by examination or structured credit system) will need to prove continued practical competence at L2 Using Annex D. Holders of valid L2 certificates will be exempt this need.*

   v. The current published recertification fee for each certificate to be revalidated (details of fees are supplied separately on form PSL/35).

IT IS THE RESPONSIBILITY OF THE CERTIFICATE HOLDER TO INITIATE THE PROCEDURE REQUIRED FOR RENEWAL AND RECERTIFICATION
4. **Procedure for PCN aerospace Level 3 recertification through examination**

4.1. The level 3 certificate holder seeking recertification by examination will submit an application to an Authorised Qualifying Body using an application form PSL/57B supported by the Level 3 task record sheet Form A3.

4.2. If the individual fails to achieve a grade of at least 80% in the recertification examination described in PCN/AERO and the relevant appendix, additional training shall be taken, after which two further attempts at the whole recertification examination shall be allowed after 7 days and before 12 months.

4.3. Candidates who fail to achieve a composite pass grade of 80% are allowed 2 re-tests of the failed module (part). The retests shall take place not sooner than 30 days of the failed recertification examination and not later than 1 year after the failed recertification examination with one re-test taking place within 6 months of failed recertification examination. The only exception to the 30 day rule is where further (supplementary) training is delivered to address areas of weakness identified in the failed recertification examination.

4.4. In the event of failure in the two allowable retests, the certificate shall not be revalidated and the candidate shall be considered an initial candidate for PCN Aerospace Level 3 certification in that NDT method.

4.5. In the event that a PCN certificate has expired, the holder may apply for late approval up to 12 months after the date of expiry (and no later) using PCN form PSL28 obtainable from [www.bindt.org/certification](http://www.bindt.org/certification). PSL/28 may also be used by individuals who recognise in advance that, for whatever reason, they will be unable to submit their application for renewal before the 6 weeks prior to the qualification expiry date concerned, in which case they may apply on PSL28 for deferred approval. It is emphasized that acceptance of an application for late or deferred approval does not extend the validity of the PCN certificate concerned.

4.6. Candidates shall not attempt to book a recertification examination nor shall the AQB confirm an examination booking until the candidate has received the PSL28 approval letter.

4.7. If renewal is applied for more than 12 months after expiry, initial by examination shall be required.

Applications should be posted or emailed to;

PCN Certification Records Office, Midsummer House, Riverside Way, Bedford Road, Northampton, NN1 5NX, pcn@bindt.org, together with;

- A certificate of acuity of near vision satisfying the requirements detailed in PSL/44 (the test having been carried out with the 12 months prior to the date of this application),
- The current Level 3 recertification fee (see PSL/35), and
- A completed Form A2 showing points claimed under the structured credit system.
- Verifiable evidence of typical level 3 activities recorded on Form A3
- A completed Annex D showing proof of level 2 practical competence

                        - Inclusion of GDPR statement |
PSL/44 VISION REQUIREMENTS – Issue 17

Dated 1st January 2018
Implementation date 1st February 2018

All PCN candidates and holders of PCN certification shall have natural or corrected vision satisfying the following minimum requirement:

PCN will recognise the Tumbling E Chart as a satisfactory near vision test please refer to BS EN ISO 18490 previously NANDTB 24 which has been superseded http://www.eminspection.co.uk/visiontests/. (Existing documentation or Tumbling E vision test charts that continue to state NANDTB/24 remain valid but ISO 18490 is the standard that must be adhered to.)

The candidate shall provide documented evidence of satisfactory vision in accordance with the following requirements:

A. Corrected or uncorrected near-vision acuity shall permit reading a minimum of Times Roman N4.5 or equivalent letters (having a vertical height of not more than 1.6 mm – see note 1) at not less than 30 cm.

B. Colour vision (see note 2) shall be sufficient that the candidate can distinguish contrast between the colours or shades of grey used in the NDT method concerned as specified by the employer see PSL/44 ANNEX A for employer guidance.

Subsequently to certification, the tests of visual acuity shall be carried out at least annually. Records of tests shall be retained by the employer or responsible agency and provided to PCN upon request. Failure to do so will invalidate all PCN certification.

NOTE 1. Laminated hand held vision test charts are available from a number of suppliers, including the Institute of Optometry*. Further information may be obtained from the Certification Services Division of the British Institute of NDT. *http://www.ioosales.co.uk/html/practice/eye06B.html

NOTE 2. All candidates and holders of PCN certification will be required to have had colour perception assessed by the Ishihara 24 plate test. For VT and CRT the candidate is usually required to undergo both the Ishihara and Grey scale tests, however, the employer will need to confirm with the AQB. For Film RT and Film RI the grey scale may be sufficient without the need for the Ishihara plate test, this shall be confirmed by the employer. The test is required every five years. In the event that a colour perception deficiency, indicated by misreading any of the first 17 plates, is detected during the Ishihara test, a further ‘trade test’ is to be carried out by the employer to ascertain whether the detected colour perception deficiency affects the individual’s ability to perform the NDT for which he is certificated. This trade test is to be documented and the record of the test made available to BINDT upon request.

In such cases as a new medical issue arises candidates are required to undergo further eye examinations as some medical conditions such as diabetes or a major medical condition can affect both near vision and colour perception.

Forms overleaf may be used to record the results of near vision, colour perception and contrast tests.

BINDT accepts that a *nominated official of an Authorised Qualifying Body, a PCN Level 3 certificate holder or other medical professional, having documented proof of satisfactory training in the administration of the test, and is medically recognised as competent to conduct such tests for candidates and holders of PCN certification.

*nominated officials must provide proof of appropriate training upon request by BINDT.
