CP27 CODE OF ETHICS

It is a condition of PCN certification that certificate holders are expected, as a minimum to understand, acknowledge and abide by the CP27 code of ethics and the principles contained herein. It is a requirement that all PCN applicants and certificate holders acknowledge, by signature, that they have read, understood and acknowledge this code of ethics and agree to abide by them at all times whilst engaged in PCN certified NDT and/or CM activities. <https://www.bindt.org/downloads/CP27.pdf>

PRESSURE EQUIPMENT DIRECTIVE 2014/68/EU

- As of 1st May 2021, examinations for those sector/methods eligible for PED recognition (see below table 1) will include a charge of £45.00 plus VAT, this will be charged as a PCN PED administration fee.
- The AQB shall implement this charge in addition to the PCN administration fee for relevant examinations (see below **table 1**).
- PCN holders will receive automatic recognition to the Pressure Equipment Directive and be visible on the LRQA-CASL verification page www.inspectioncasl.com/704-2. They will be issued with a certificate showing compliance with PED.
- Approval will continue until the certificate has expired.

GENERAL INFORMATION (please read carefully before completing application).

This form is to be used for candidates for initial examination in any PCN designated NDT method and industry or product sector. Form PSL/57B is to be used for recertification and supplementary examinations, or a retest of previously failed initial examinations.

All candidates for PCN examination and certification are required to fulfill the conditions for eligibility specified in the current edition of the PCN General Requirements for Certification of NDT Personnel.

Eligibility is defined in terms of visual acuity and colour perception, training, and experience. Attention is drawn to opportunities for mature candidates who may satisfy special eligibility criteria (PCN General Requirements refer). Candidates will be required to supply verifiable evidence of satisfying all eligibility criteria and PCN publishes the following documents, all of which are available free of charge, for use in recording and providing such information in an acceptable format.

Candidates shall supply, to the AQB, verifiable evidence of satisfying all eligibility criteria i.e. valid visual acuity and experience prior to booking an examination, in the event that BINDT discovers that the required evidence of eligibility is not submitted, any examination results or certification awarded will be null and void.

PSL/30 mandatory form for recording certification experience **See Part 5**

PSL/44 PCN Vision Requirements, including optional form for recording results of tests

Initial enquiries for examination appointments should be made to the PCN Test Centre by telephone. However, no examination appointment can be considered confirmed until a correctly completed application form and supporting information has been received. Applications should be legibly completed.

Once completed, this form and supporting information should be sent to the PCN AQB together with relevant payment information or examination fees. One application form is to be submitted in respect of each examination applied for. Candidates not already having a PCN identity card will need to provide one passport photograph on the day of examination. Please enquire beforehand whether photographic facilities are available at the examination centre.

Applications dependent upon the individual holding (or having held) appropriate certification must be supported by acceptable evidence of such certification. If a photocopy is attached to this application as evidence, the candidate will be required to show the original on the day of the examination.

Where marks from earlier examinations are to be included in the weighted composite grade, the candidate should supply the relevant examination result notice (or, where unavailable, verifiable information from which the date and scope of the examination and the PCN Test Centre where the examination took place can be ascertained). Failure to comply with this requirement may result in a refusal to examine.

Applications shall only be completed by the candidate seeking PCN certification.

If uncertain of the requirements for this application, please consult the Test Centre or PCN before proceeding.

PCN INTRODUCES ELECTRONIC CERTIFICATES

PCN is transitioning to e-certification, whereby certificates are to be issued electronically, so that PCN certificate holders can view and print their certificates from their laptop or mobile device.

To be eligible for e-certification, the PCN holder must ensure PCN has an up-to-date electronic copy of their photo (taken within the past 10 years), a signature and valid PERSONAL email address.

PART 5. PRE-CERTIFICATION EXPERIENCE

Experience is not an essential pre-requisite for level 1 and 2 examinations only. However, if such evidence is available at the time of examination, and it is a **mandatory** requirement that this be provided direct to the AQB on the PSL 30 Attached.

Industrial NDT Experience – the experience needed to acquire the skill and knowledge to fulfil the provisions of qualification in the appropriate sector, and which is gained under the supervision of Appropriately Qualified Personnel, in the application of the NDT method in the sector concerned.

Qualified supervision – supervision of candidates gaining experience by NDT personnel certificated under the PCN Scheme or by non-certificated personnel who, in the opinion of BINDT, possess the knowledge, skill, training and experience required to properly perform such supervision.

Appropriately Qualified Personnel – Individuals carrying out supervision of candidates for PCN certification holding relevant certification issued by a BINDT recognised certification body meeting the requirements of ISO/IEC 17024.

NOTE: The Supervisors' certificate(s) must be verified as the same level, sector and method and must be valid at the time the experience was gained.

This may include certification schemes other than ISO 9712, such as EN 4179 and SNT-TC-1A providing that this certification has been gained using external training/examination support provided by a BINDT approved organisation. The organisation must be a BINDT approved ATO, AQB and/or OA status. Please contact pcn@bindt.org if clarification on this is required.

Experience may be gained following level 1 and 2 examinations only and recorded on Form PSL/30. Once evidence of experience satisfying the above definitions has been accumulated, it is provided direct to PCN, together with an application for certification using form PSL/57C. Level 3 candidates – must have the required amount of NDT experience prior to taking any examination.

Claimed duration of experience in applying the NDT method under qualified supervision (enter number of months or weeks): PSL 30 to be completed with details:	
Name, address and telephone number or email address of person who can verify experience claimed:

CP27 ISSUE 2 DATED 1st APRIL 2021

CODE OF ETHICS FOR PCN CERTIFICATE HOLDERS

Individuals certified within the PCN Scheme must recognise that personal integrity and professional competence are the fundamental principles on which their testing activities are founded. Consequently, it is required that all PCN certified NDT personnel subscribe to a "Code of Ethics" designed to protect the integrity of any NDT processes and inspections in which they may become involved.

The integrity of NDT and CM processes and the people performing those processes is a fundamental requirement in ensuring that the inspections performed remain at the highest possible level in terms of quality and reliability. Consequently, BINDT and industry at large expect all PCN certified NDT and CM personnel to conduct themselves in an ethical and morally acceptable manner at all times whilst performing their NDT/CM duties.

It is a condition of PCN certification that certificate holders are expected, as a minimum to understand, acknowledge and abide by this code of ethics and the principles contained herein. It is a requirement that all PCN applicants and certificate holders acknowledge, by signature below, that they have read, understood and acknowledge this code of ethics and hereby agree to abide by them at all times whilst engaged in PCN certified NDT and/or CM activities.

I, the undersigned, undertake to:

1. comply with this code of ethics;
2. apply themselves correctly and to maintain high levels of integrity, honesty, skill and proficiency in the conducting of NDT
3. undertake only those non-destructive testing assignments for which they are competent by virtue of their training, qualification and experience. i.e. to only perform inspections commensurate with their level of certification in the applicable test disciplines.
4. perform all inspections to the best of one's ability at all times and to resist any outside pressures that they consider may have the potential to affect the integrity, honesty, quality or outcome of any testing performed. Any such undue pressures should be reported to the employing management/supervision and BINDT.
5. only sign documents for work of which they have personal professional knowledge and/or direct supervisory control;
6. engage, or advise the engagement of, such specialists as are required to enable assignments to be properly completed;
7. conduct themselves in a responsible manner and utilize fair and equitable business practices in dealing with colleagues, clients and associates;
8. at all times, be aware of and uphold the provisions/ requirements of codes, regulations and standards under which they are working;
9. immediately report to their supervisor/employer any perceived violation(s) of codes, regulations or standards. In the event that their supervisor/employer provides no satisfactory explanation or takes no corrective action, the certified individual shall report the situation direct to the British Institute of NDT;
10. perform their professional duties with proper regard for the physical environment and the safety, health and well-being of the public;
11. protect to the fullest extent possible, consistent with the well being of the public and the provisions of this code of ethics, any information given to them in confidence by an employer, colleague or member of the public;

12. avoid conflicts of interest with the employer or client, but when unavoidable, forthwith disclose the circumstances to the employer or client;
13. strive to maintain their proficiency by updating their technical knowledge as required to properly practice NDT in the certified methods and levels.
14. indicate to the employer or client any adverse consequences which may result from an overruling of their technical judgment by a non-technical authority;
15. not falsify nor permit misrepresentation of their own or their associate's academic or professional qualifications, training, experience or work responsibilities;
16. refrain from making unjustified statements or from performing unethical acts which would discredit the PCN scheme;
17. immediately report to the British Institute of NDT any perceived or known fraudulent use of PCN certification, including the use of forged or false PCN certification.
18. immediately report to the British Institute of NDT any perceived violation(s) of this code of ethics;
19. immediately report to the British Institute of NDT any attempt to pressure or force an individual certified under the PCN Scheme to violate this code of ethics;
20. inform their employer in the event that their PCN certificate is suspended, cancelled or withdrawn.

Failure to comply with the above code of ethics will be dealt with under arrangements for handling complaints and appeals (PCN document CP21 refers).

REMINDER: PCN certificate holders are reminded that they should be aware of the consequences that may arise from any failure to comply with this code of ethics including the consequences of in-service failures and any ongoing effect on the health and safety of persons, plant, equipment and the environment.

I acknowledge I have read and understand the PCN "Code of Ethics" and hereby give my commitment to abide by those principles in the performance of my NDT duties whilst certified by PCN.
