PSL-57B APPENDIX A - REQUIREMENTS FOR PSL-57B Supplementary and Recertification ....................................... 7
Summary of changes.............................................................................................................................................. 8

Recertification exam:

1. To ensure continuity, applications for recertification shall be submitted in a timely manner to ensure the examination is taken no later than 6 weeks prior to the expiry date. Recertified certificates will be issued from the previous expiry and expire 5 years minus a day from the original expiry date, unless a late or deferred application has been submitted.

2. Recertification exams can be sat and booked within the 6 weeks prior to the expiry date, however, the candidate shall apply for deferred approval using document PSL-28 and shall incur the financial penalty.

3. Applications for recertification by examination submitted after the certificate has expired may be considered by BINDT, up to a maximum of 10 months after the expiry date, however, the candidate shall apply for late approval using document PSL-28 and shall incur the financial penalty.

4. If the examination was sat after the expiry date without a deferred/late approval then the results notice shall be considered invalid.

5. Candidates who require deferred/late approval shall not attempt to book a recertification examination nor shall the AQB confirm an examination booking until the status of the deferred/late application is confirmed by BINDT i.e. approved or declined by BINDT. Requirements of PSL28 must be followed.

Supplementary exams:

For all supplementary requirements and rules refer to PCN/GEN.

1. All initial supplementary exams must be sat no later than 6 months prior to the expiry date of the certificate being supplemented to ensure the results notice is received before the expiry date. Results notices received after the expiry date will not be accepted.

Extensions to retest: if an extension to retest is requested, the extension will be based on the latest retest date given on the result notice. REF form PSL-55

The British Institute of Non-Destructive Testing is an accredited certification body offering personnel and quality management systems assessment and certification against criteria set out in international and European standards through the PCN Certification Scheme.
GENERAL INFORMATION (please read carefully before completing application).

This form is to be used by candidates applying for recertification or supplementary examinations, or for retests of previously failed examinations. Form PSL/57A is to be used for candidates applying for initial examination in any PCN designated NDT method as applied in an industry or product sector.

All candidates for PCN recertification or supplementary examinations and certification are required to fulfill the conditions specified in the current edition of document CP16 (for levels 1 and 2) or CP17 (for level 3) as appropriate.

Eligibility is defined in terms of visual acuity and continuity in the application of the certification for which recertification or supplementary examinations are sought. Candidates will be required to supply verifiable evidence of satisfying all eligibility criteria and PCN publishes the following documents, all of which are available free of charge, for use in recording and providing such information in an acceptable format:
Candidates shall supply, to the AQB, verifiable evidence of satisfying all eligibility criteria i.e. valid visual acuity and experience prior to booking an examination, in the event that BINDT discovers that the required evidence of eligibility is not submitted, any examination results or certification awarded as a result will of the examination will be null and void.

PSL/44 PCN Vision Requirements, including optional form for recording results of tests
CP/16 Renewal of level 1 and level 2 certificates
CP/17 Renewal/Recertification of level 3 certificates

Initial enquiries for examination appointments should be made to the PCN Test Centre by telephone. However, no examination appointment can be considered confirmed until a correctly completed application form and supporting information has been received. Applications should be legibly completed.

Once completed, this form and supporting information should be sent to the PCN Test Centre together with relevant payment information or examination fees. One application form is to be submitted in respect of each examination applied for.

Applications dependent upon the individual holding current valid PCN certification must be supported by acceptable evidence of such certification. If a photocopy is attached to this application as evidence, the candidate will be required to show the original on the day of the examination.

Where marks from earlier examinations are to be included in the average grade, the candidate should supply the relevant examination result notice (or, where unavailable, verifiable information from which the date and scope of the examination and the PCN Test Centre where the examination took place can be ascertained). Failure to comply with this requirement may result in a refusal to examine.

Please refer to the PCN/GEN document for clarification on requirements for Retests, Supplementary exams and Distinction grading.

INFORMATION TO BE PROVIDED BY APPLICANT
This application form asks for specific details on continuity and must be signed to the effect that these details are correct. In the event of a false statement being discovered, any certification awarded as a result of the examination will be null and void. Please complete all of the following parts.

PART 6. CANDIDATE’S STATEMENT CONFIRMING ELIGIBILITY FOR EXAMINATION

CANDIDATE’S FULL NAME: ........................................................................................................

PCN NUMBER (if existing PCN certificate holder): .................................................................

I have read and understand PCN General Requirements for the certification of personnel engaged in NDT, particularly the criteria for eligibility, and hereby confirm that I satisfy those criteria covering vision, training and experience applicable to the level and NDT method for which I am seeking certification. In the event that I should be awarded PCN certification. I agree to comply with the PCN Code of Ethics (published as PCN document CP27).

I understand that, in the event of a false statement being discovered, any certification awarded as a result of the examination will be null and void. I accept responsibility for payment of examination fees in the event of non-payment by the sponsor.

I understand that BINDT will hold and use personal data supplied by me for administration purposes. These purposes have been notified under the Data Protection Act 1998. The data may also be used to send separate unsolicited mailings* containing details of events, new services, products etc...

SIGNATURE: .............................................................. DATE: ........................................

Attach
a. Vision test certificate (PCN PSL44 may be used) unless vision test arranged at Test Centre
b. Correct examination fee (unless part 5 of this form is appropriately completed); details of fees are available from the test or examination centre.

Bring
c. 2 passport photographs (Unless already a holder of a PCN identity card issued within the past 10 years, or if photographs are to be taken at the Test Centre – check beforehand if facilities are available on site)
d. Your PCN record of certification and PCN identity card (if already a PCN certificate holder)
e. Your own NDT instrument if desired (information on acceptable instruments is available from the Test Centre), together with a valid calibration certificate.

PART 7. VERIFICATION OF CANDIDATE’S STATEMENT BY THE SPONSOR, EMPLOYER OR, IF THE CANDIDATE IS SELF-EMPLOYED, A REFEREE.

To the best of my belief, the candidate’s statement given above is correct at the time of signing.

REMARKS (if any verification sought and obtained, record details below):
1. Procedure for Recertification by Examination

A candidate who is unsuccessful in the recertification process will be considered an initial candidate for certification in that sector, method and level covered by the original certificate, candidates are advised to prepare thoroughly for recertification.

It may be considered advisable to undertake continuation training at a BINDT approved training organisation before attempting the recertification examination. Such training is to be recorded using Annex D2

1.1. Applications for recertification by examination submitted after the certificate has expired may be considered by BINDT, up to a maximum of 10 months after the expiry date of the certificate concerned. In this instance the candidate shall apply for late approval and shall incur the financial penalty.

a. Certificates on issue 01 (5 year revalidation) – Applications for recertification by examination exceeding the 10 month period will not be admitted and the candidate shall be permitted to attempt a recertification examination

b. Certificates on issue 02 (10 year revalidation) – Applications for recertification by examination exceeding the 10 month period will not be admitted and the candidate shall successfully pass an initial examination (general, specific, and practical) for level 1 and level 2 and a main method examination for level 3

1.2. Candidates shall not attempt to book a recertification examination nor shall the AQB confirm an examination booking until the status of the deferred/late application is confirmed i.e. approved or declined by BINDT. Requirements of PSL28 must be followed.

1.3. The certificate holder must submit documentary evidence of a satisfactory test of visual acuity (meeting the published requirements of PCN document PSL/44) conducted within the 12 months prior to recertification.

1.4. Applications for **supplementary examination (which also serves as recertification) using form PSL57B must be submitted during the validity of the certificate and the supplementary exam shall be taken no later than 6 months prior to the date of certificate expiry. The PSL57B application must be completed and submitted by the applicant directly to the AQB, together with:

- Eye Test (Documentary evidence of a satisfactory test of visual acuity)
- A completed PSL/33 where the holder’s PCN wallet card was issued more than ten years ago.

The current AQB recertification or supplementary examination fee (details of fees are provided directly by the AQB).

**Full requirements for supplementary examination – refer to PCN GEN Supplementary Examinations

1.5. Whilst there is no mandatory requirement to submit surveillance records at recertification, it is strongly recommended that employers of NDT personnel implement a system of internal surveillance as described in Annex B. Where records of surveillance are available, they should be submitted with applications for recertification in order to demonstrate satisfactory work activity without significant interruption.

1.6. In the event that a PCN certificate has expired or there is not sufficient time remaining on the certificate, a supplementary examination shall not be permitted and the candidate shall re-gain the certificate via the recertification procedure prior to supplementing.

1.7. Late/deferred applications will incur an additional charge, listed within PCN document PSL35.

1.8. To recertify, the candidate must successfully complete a practical recertification examination. The recertification examination will include testing selected specimens appropriate to the scope of certification to be revalidated and, for Level 2, the production of a written NDT instruction suitable for use by Level 1 personnel.

1.9. If the individual fails to achieve a grade of at least 70% for each specimen attempted (weighted according to PCN document CP22), two retests of the whole recertification examination shall be allowed after at least 7 days and before 6 months
1.10. In the event of failure in a recertification examination, BINDT will immediately cancel the certificate concerned, issuing a new record of certification that no longer shows the competence concerned, and sending this with an explanatory letter to the certificate holder requesting the return of the superseded record of certification which is a mandatory requirement. The cancellation of the certificate will not affect the eligibility of the candidate to attempt the two permitted retests within the 6 month period allowed.

1.11. In the event of failure in the two allowable retests, the certificate shall not be revalidated and, to regain certification for that level, sector and method the candidate shall apply for new certification. In this case, no examination exemptions shall be awarded by virtue of any other valid certification held.

1.12. Holders of Level 1 or 2 certification who wish to add an additional category (where appropriate) at the same level, will be required to attempt a supplementary examination comprised of specific written and/or specific practical parts.

1.13. Appeals may be made against failure to recertify a PCN certificate. All appeals must be made in writing using the BINDT form CP21

Important information for Radiography certification

1.14. In addition, holders of radiography certification at all levels will be required to be in possession of valid PCN basic radiation safety or radiation protection supervisor certification (or alternative national radiation safety certification where the certificate holder concerned is engaged in radiography exclusively outside of the United Kingdom) to maintain the validity of the radiography certificate.
